

New Forest Log Cabins Ltd

## PRICE PROMISE

### **PRICE MATCH PROMISE**

Our Price Match Promise is simple. We will match or beat our competitors prices guaranteed. To take advantage of our price match promise simply send us a quotation from another log design company and we will match or beat their price. If you find a product closely matching one of our designs with a similar build quality at a better price, we will offer to match that price.

### **OUR PROMISE TO YOU**

Our quality of product and prices are the most competitive available and we regularly check our prices to keep it that way. That's why we can confidently promise that should you be given a lower quote for the same work, we will match or beat that price.

### **THE SMALL PRINT**

- *Our price match promise applies to services provided by Log Building suppliers based anywhere throughout England, Wales and the Channel Islands, but does not apply to countries outside the British Isles.*
- *Our price match promise covers work to the same specifications as specified on your written quotation. For example, if your quote is for a 2 bed Mobile Log Home constructed in 88mm laminated log design then we will price match for a 2 bed Mobile Log Home constructed in 88mm laminated or 92mm solid log design.*
- *If your quote does not include internal decoration or external preservative, wall insulation, solid strip pine floors, we will then price match for Log Home without these items.*
- *Finally, our price match promise is issued subject to availability. For example, if your quote includes an 8 week delivery but we currently have a waiting list of clients, then we will match the price as soon as we have production and installation availability.*
